State of Wisconsin Department of Corrections

Sheriff Brian Schmidt Price County Sheriff's Department PO Box B, 164 Cherry Street Phillips, WI 54555-0902

Re: Annual Jail Inspection

Dear Sheriff Schmidt:

On July 31, 2017, the annual inspection of the Price County Jail was conducted pursuant to WI Statute 301.37(3). The inspection compared the facility and its operation to applicable state statutes and Department of Corrections Administrative Code Chapter DOC 350. This report summarizes my findings, including the progress made following the 2016 inspection, any statute or administrative code violations, physical plant and maintenance issues, and an overall summary of facility operations. The inspection worksheet is attached to this letter and includes detailed inspection results.

On the day of the inspection, there were 16 inmates incarcerated in the facility. There were two inmates supervised with the use of the Home Detention Program.

Progress following the 2016 Inspection

- Gabe Lind was hired as the new Jail Administrator on April 17, 2017.
- The Pipe buttons were moved to the inside of the cell blocks to provide better supervision when staff conducts rounds.
- All Huber and EMP paperwork is being reviewed by a supervisor.
- New construction has started on the jail, which will add much needed space for staff and inmates.
- Huber and EMP inmates are now being monitored by GPS 24/7 by the Price County Jail staff.

Summary of Jail Operations

I met with Price County administrative, security, healthcare, and food service staff to conduct the annual inspection. The site visit included a review of facility records and documentation, as well as a walkthrough of the detention areas. The attached checklist details my findings as they relate to the Department of Corrections Administrative Code Chapter DOC 350 and applicable State Statutes.

In summary, the overall appearance of the jail was in satisfactory condition. It is apparent that both staff and inmates are held accountable for the cleanliness of the facility. After a walkthrough of the detention areas, there were no repetitive complaints from inmates regarding conditions of confinement or staff supervision. The staff is to be commended for the overall positive climate and their observed professional interaction with inmates.

Violations:

There were no violations found during this inspection.

Recommendations:

The following recommendations were documented during this inspection:

- 350.18(8) Key Control The Price County Jail has a policy in place regarding key control, but on the day of inspection it was noted that staff do not maintain a key inventory. The Jail Administrator was made aware of this and will work towards compliance.
- 350.19(4) Fire evacuations and other procedures shall be practiced or simulated by all jail staff at least once every 12 months. Each practice or simulation shall be documented. On the day of inspection it was reported that this did not happen in 2017. This violation was also noted on last year's inspection document. The Jail Administrator is aware of this and stated a practiced or simulated training will be created and implemented before next year's inspection.
- 350.12(12) Inmates are provided cleaning supplies daily. On the day of inspection, it was noted that inmate are only provided cleaning supplies twice per week. This was brought to the attention of the Jail Administrator, and he stated inmates will be provided cleaning supplies daily to meet code requirement.
- 350.28(1) The jail shall establish definitions and procedures to define indigence. The Price County Jail has a policy and procedure in place regarding indigence. It is a recommendation to have a more clear definition of what indigence is in your policy.
- 350.30(6) Establishment of a search policy for inmates before and after each visit. Although it was reported on the day of inspection that inmates are searched before and after each visit, the visitation policy does not reflect this procedure. It is recommended that this be included in policy.
- 350.11(7) Food temperatures are properly maintained. On the day of inspection, it was reported that no food temperatures are maintained on site due to Taylor County providing the meals. It is a recommendation that records also be maintained at the jail.

Miscellaneous issues

The following list summarizes observed areas of concern:

- The paint in the shower area of the two-man upper dorm is peeling and requires attention.
- There is dirt on the ceiling of the North Huber shower area that requires attention. Since the day of inspection this has been addressed.

Department Expectations following the 2017 Inspection include:

- Continue to maintain your inmate population at a manageable level.
- Address areas of concern items noted.
- Look to see if policy updates are needed with the new construction of the jail. If updates are needed, please send them to my office for review and approval.
- Continue to contact our office with any questions you may have.

Approval

The Price County Jail is approved by the Department of Corrections for the secure detention of adult offenders with the maximum capacity of 22. This approval is contingent on the continued compliance with all applicable state statutes and administrative codes.

I wish to thank you and your entire staff for the gratitude, effort and professionalism showed to me during the inspection process.

If you have any questions regarding the inspection results summarized in this letter and found in the attached inspection worksheet or if I may be of any assistance regarding correctional matters, please contact me.

Sincerely,

Brad Hoover
